

**X-TYPE**

The spacious X-TYPE ESTATE, the first ever from JAGUAR, treats you to every day functionality as well as outstanding sports car performance.

The beautiful proportions of the X-TYPE estate belie a car that can handle even the bulkiest loads. Flexible rear seats split 70/30 and can also fold separately, without having to remove the headrests, to help cope with loads of any shape.

The precise and responsive JAGUAR handling is allied to a car with the practicality - and versatility - to fit your lifestyle.

X-TYPE technology gives confidence whatever the circumstances, like Dynamic Stability Control (DSC), available across the range, which is designed to help maintain control and balance. Traction Control, standard on diesel models, helps assure road grip when accelerating and variable ratio power assisted steering gives reliable, consistent feedback.

# The wide choice of luxurious interiors allows you to tailor your X-TYPE *just the way you want it.*

From finely stitched leather and fabrics and crafted wood veneers, to contemporary interiors of Carbon Fibre, and soft, but hard-wearing Alcantara® sport seats trimmed in Warm Charcoal leather.

Electric height adjustment for the driver's seat, air conditioning and perimeter security system with intrusion sensing, are all fitted as standard across the range.

The 7 inch Touch screen gives fingertip control of everything from the audio system to Bluetooth® telephone connectivity (where fitted), and JaguarVoice® allows you to manage everything from climate control to satellite Navigation with a spoken command.

The multi-function steering wheel, front and rear parking sensors, and rain sensing windshield wipers, are all designed to make your X-TYPE a delight to drive.

\* Catalysed Diesel Particulate Filter is an optional filter system that catches the very fine diesel soot particles that arise in combustion engines. The filter system reduces soot particle emissions to near zero, not only exceeding European emissions standards (EURO STAGE IV) but also helping to reduce the level of pollutants in the environment.

Unmistakeably a JAGUAR, the impressive on-road presence of the X-TYPE makes it instantly recognisable as a car of stature and sporting performance.

The balanced, curvaceous good looks of the saloon, with its clean lines and purposeful stance, are matched by the exceptional ride and exhilarating performance.

The engine range includes the highly advanced TURBOCHARGED 2.0 AND 2.2 LITRE DIESELS, and the 2.5 AND 3.0 LITRE V6 PETROL ENGINES, both of which are fitted as standard with Traction<sup>4</sup>, JAGUAR'S first All Wheel Drive system.

More than twenty two years time - 175,000 hours - went in to the development of X-TYPE'S safety performance for greater confidence and enhanced passenger protection.

Features such as deformable crumple zones front and rear, anti intrusion bars, front and side airbags, four channel Anti-lock Braking System (ABS) and Emergency Brake Assist (EBA), where fitted, are designed to enhance the protection offered by an incredibly strong and rigid passenger cell.
