6 42	51.10	5 21	64.84
6 39	51.58	5 18	65.45

Owing to the exigency of space the above Table is given with three second intervals. In order to find the exact speed between any two given times, add or subtract .16 M.P.H. for every second,

e.g., TIME BROADCAST 7 min. 22 secs.  
 = 44.86 (average for 7 min. 21 secs.) less .16  
 = 44.7 m.p.h.
