By its outstanding record of successes in races and rallies all over the world, Jaguar has gained a position in the very forefront of modern cars. All the knowledge and experience gained in such races as the Le Mans 24-Hour Race, the Rheims 12-Hour Race and the R.A.C. Tourist Trophy have been incorporated in these 1955 models—the 'M' type Mark VII and the XK.140 series—cars which will enhance still further the high reputation of the JAGUAR marque.

The
JAGUAR
range of models for 1955

XK 140 open 2-seater

The XK.140 now offers an even higher performance together with increased leg room and greater luggage accommodation. Power output has been increased to 190 b.h.p. and rack and pinion adopted for the steering. Special equipment models have 210 b.h.p. engines, wire wheels and foglamps.

XK 140 Drop Head Coupe

The same specification as the open 2-seater but combining the advantages of open and saloon car design. With the hood up it has all the comfort of a saloon which can be converted to an open car in an instant without leaving the seat. Extra seating accommodation for two children. Also in special equipment form.

XK 140 MODELS *Abridged Specification*

ENGINE. Six-cyl. $3\frac{1}{2}$ litre. 83 mm. bore \times 106 mm. stroke. 3442 c.c. developing 190 b.h.p. (Special equipment engines develop 210 b.h.p.). Compression ratio 8 : 1. Twin S.U. horizontal carbs. with electrically controlled automatic choke.

FRAME. Straight plane steel box section.

TRANSMISSION. 4-speed single helical synchromesh gearbox.
