THE JAGUAR

Two-point-four
LITRE

With all the inherent

qualities inseparable from all Jaguar cars

every Jaguar exhibits to those characteristics
care, silence and refinement which are
commanded and desired, an maximum of

60 brake horsepowet per ton, a projection

existence. With a power output of 112 pl

world is accelerated to the most adoring

capacity and is the latest development of a

A
THE SIX-CYLINDER 2.4 LITRE JAGUAR XK ENGINE

For full details see general specification overload.
THE 2.4 LITRE SPECIAL EQUIMENT MODEL

ENGINE. Six-cylinder 2.4 litre Jaguar XK engine, 70° twin overhead camshafts driven by a two-stage roller chain. 83 mm. bore×76.5 mm. stroke; capacity 2,402 c.c. developing 112 b.h.p. at 5,750 r.p.m. Compression ratio 8 or 7:1 (optional). Twin Solex downdraught carburetters. Cooling by pump and fan with bypass thermostatic control. Forced lubrication throughout by submerged pump system incorporating a full flow filter. Chrome iron cylinder block. Cylinder head of high tensile aluminium alloy with hemispherical combustion chambers. Aluminium alloy pistons. Steel connecting rods. 2½ in. diameter counter-weighted crankshaft carried in seven large steel backed bearings.

SUSPENSION. Independent front suspension incorporating semi-trailing wishbones and coil springs with telescopic shock absorbers. Trailing link type rear suspension by camberlink semi-elliptic springs, radius arms and telescopic shock absorbers.

BRAKES. Lockheed 'Brakemaster' servo assisted self-adjusting hydraulic brakes. Brake drum diameter 11¾ in. Friction lining area 157 sq. in. 'Pull up' handbrake mounted at floor level on the right-hand side of the driver's seat.

STEERING. Burman recirculating ball type steering with 17-in. diameter adjustable steering wheel. Left or right-hand steering optional.

WHEELS AND TYRES. Pressed steel bolt-on disc wheels with wide box rims, fitted with Dunlop 6-40×15-in. low pressure tyres.

FUEL SUPPLY. By S.U. electric pump. 12 imperial gallon capacity tank.

To the motorist demanding the utmost in speed by its handsome Jaguar radiator mascot, the centre armrest in the rear compartment. W adjustable, are fitted. The interior lights are revolution counter; electric clock and cigar lighter; finish of the engine is further enhanced by...
In the 2.4 litre Jaguar saloon will be found the embodiment of all the highly specialized technical knowledge and engineering achievement that have gained for the name Jaguar the highest international repute. Here is a car which derives its character and breeding from every reward of Jaguar endeavour, every phase of Jaguar achievement and every lesson learned in the hard school of international racing. In its outward appearance, the unmistakable Jaguar line of grace is seen with lesser, more compact overall dimensions than those of the Mark VII and Mark VIII, yet the interior has been so skilfully planned that full accommodation for five persons is provided and further provision made for generous luggage accommodation. To those motorists whose desire for a car of compact dimensions is a matter of personal preference the opportunity is at last presented, not only for satisfying that desire, but for gratifying a natural wish to own a car the mere possession of which indicates insistence on owning nothing but the best . . . a Jaguar.

**ECIFICATION**

**ELECTRICAL EQUIPMENT AND INSTRUMENTS.** Lucas 12-volt 81-amp. hour capacity battery with constant voltage controlled ventilated dynamo. 10-hour discharge. Flush fitting sidelamps and headlamps, integral stop/tail lamps with built-in reflectors, reversing lamps, self-cancelling flashing direction indicators with warning light, panel lights, manually controlled interior lights, twin blended-note horns, twin-blade two-speed screen wipers, starter motor, vacuum and centrifugal automatic ignition advance, oil cool ignition.

**INSTRUMENTS.** 5-in. diameter speedometer, ammeter, oil pressure gauge, water temperature gauge, fuel gauge with warning light.
