New Jaguar 3.4 & 3.8 'S' models
join the famous Mark 2, Mark Ten, and 'E' type range
These new 'S' models make available, in a car of compact dimensions, the very latest refinements in Jaguar design and engineering.

The wide choice of high-performance high-quality motoring which the Jaguar range provides is now further extended by the introduction of these new 3.4 and 3.8 'S' models.

With impeccable body styling and spacious interior proportions, these new cars are powered by the world famous Jaguar XK engines of either 3.4 Litre or 3.8 Litre capacity.

The many important features incorporated include:-

- All-round independent suspension providing the utmost riding comfort under all conditions.
- Self-adjusting Disc Brakes on all four wheels and self-adjusting handbrake.
- Exceptionally large luggage boot giving an entirely unobstructed capacity of 19 cubic feet.
- Twin petrol tanks—one in each rear wing.
- Reclining seats for driver and front passenger.
- Driver-operated variable interior heating with on-or-off control for rear compartment.
- Greatly increased interior space with more head and leg room affording the highest degree of comfort front and rear. Increased parcel accommodation.
